

COLOCATION

OWN YOUR STACK — WITH A LITTLE HELP FROM SUMMIT.

Our cloud-ready colocation solutions power, protect, and connect your IT infrastructure in secure data centers worldwide.

FLEXIBLE DEPLOYMENT OPTIONS

High-Density Cabinets
1/4, 1/3, 1/2, full (42U)

Private Cages
An added layer of physical security to protect your digital assets

Wholesale Data Center Space
Entire server rooms for your org to scale

WHY SUMMIT?

Feature	Benefit
Flexible Management	Choose from fully managed, co-managed, or self-managed options.
Hybrid-Ready	Connect your collocated gear to the public clouds of your choice and Summit's cloud infrastructure.
High-Density Power & Cooling	Ideal for AI, machine learning, and power-hungry applications.
Strategic Global Locations	16 data centers in key markets worldwide.
Compliance	SOC 2, PCI DSS, HIPAA.
100% Uptime SLAs on Power and Network	Redundant power, cooling, and connectivity keep your business online, guaranteed.
24/7/365 Expert Support	Real humans. Real help. Real fast.

We lean on Summit's sales and network engineers for everything, from on-site hardware swaps to large-scale buildouts. We consider them an extension of our own staff.

— New Relic

WHAT'S NEW

- Future-proofed for AI & high-density workloads
- Continuous compliance updates
- Integrated with Summit's CloudRunner™ app hosting platform

THE SUMMIT DIFFERENCE

Summit	Other Colo Providers
End-to-end IT partner	Just another cage-and-power provider
Direct, secure 100+ Gbps connectivity and 100% network uptime SLAs	10-Gbps connectivity with limited redundancies and poor SLAs
Built for AI & emerging tech	Infrastructure not optimized to support modern, high-density workloads
Global reach with local support	Inconsistent service across geos

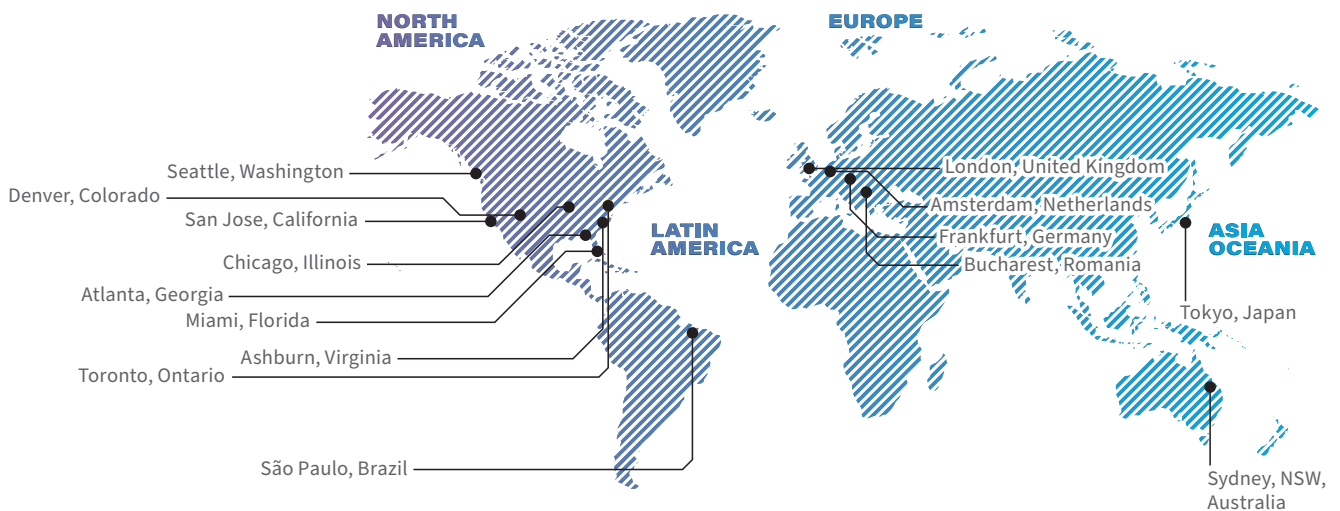

PART OF A BIGGER PICTURE

Colocation is the foundation of Summit's full-stack IT portfolio. From app hosting and cloud infrastructure to data backups and recovery, we help businesses scale like they mean it.

HAPPY CUSTOMERS
